

## Town Meeting

10-30-14

### TOWN MEETING

10/30/14

#### Precursors

- SAB - none
- Staff meeting - none

#### Announcements

- Reminder about Trick-or-Treat for Unicef and donation boxes in the library.

#### Consent Items

- Money for "Bystander Intervention" removed from the agenda.
- Adam proposed a geography club to meet during lunch. He doesn't have a teacher sponsor yet, so Eleanor said she would speak with him later and item tabled.

#### Motions

- Jennifer proposed changing next Monday's schedule to include all blocks, since E wouldn't normally meet again until next quarter. Has been done in the past. A request made to post revised schedule as quickly as possible. Motion passed unanimously.

#### Discussions

- Casey spoke about an ongoing problem with a neighborhood man who has insisted on walking his German Shepherd on school property off-leash while students were using the field. Because he refused to cooperate, police intervention was necessary and he has now been served official No Trespassing orders. Should anyone see/encounter him on the fields, don't confront him but contact the main office.
- Dave Soles showed pictures of possible architectural plans made to include roof-top athletic fields that we may want in the event of a move to a new building at the Wilson site. Possibilities include one large football sized field (allowing for two Frisbee fields) or two smaller fields in different locations. He also showed pictures of a high school in New York, now open, with such fields. Eleanor and Casey both agreed that it was good to approach this prospect with a positive attitude, and Casey reminded us that in the event of a definite decision to move and rebuild, a "Building Level Planning Committee" would be put together and the H-B community would have significant input.

Chair: Amanda
