

Setting up Global Protect on an MBA

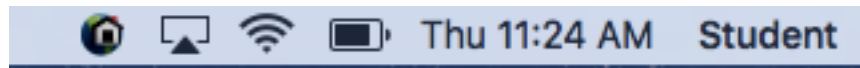

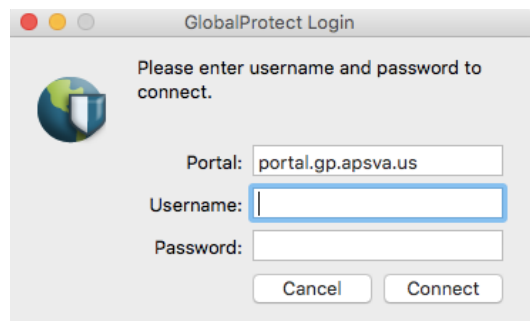

1. Go to Self Service

2. Select Global Protect 3.1.6 on the Featured Page

3. You will be prompted to enter your username and password as soon as the install completes. Enter your student number for username and regular password.
4. You can now quit Self Service. You will see a house icon in the upper right hand corner of your screen next to the displays and wifi icons.

5. If you see a red x instead, you have become disconnected and will not be able to access internet.
