March Book Madness

Gun sense Walk out tomorrow

Motions:

Thursday Schedule

Change early release

A put back in, cancelling TA

E block also cancelled

Discussions:

2018-2019 schedule

Two chunks of time instead of TA, time to make up work and meet with teachers, of the two TA blocks 1 used for I block, also having either one evened out during the week,

It would be for the whole school except middle school might be different,

It isn't mandatory, work time and or to meet with teachers, we would decide if it is TA or I block, wide range for uses for this block, there were specific days for I blocks and TA time, I block is more of a academic

time, teachers use a good amount of time to get things together, thinking about how we use our class time, teachers should have a lunch time to eat lunch, 6th and 7th graders are missing TA and some lunch to make up class work, I block is good because when you need to meet with a teacher and meet with clubs it isn't such a burden for them during lunch time, makes it better for everyone, when we lower 8:20 blocks, it is better for more people to have work blocks, if option one only one TA?, it won't look the same for middle school, if I block makes a block and a half can teacher go into the classes, more people that come to town meeting, teachers loose more time, even with these short blocks set in place, 90 minutes a week to work on work, I block a break in your day, stress relief block, if

students misses a test, they use lunch to make up test,

Teachers would like extra time to help students understand it better, important resource for middle schoolers, changing the name, short times used for TA, evening out the

Blocks, better for the teachers, other schools make all of the blocks the same, makes the week better for the teachers in the way they can have students come to them, very first town meeting after Spring break we consider more variations of options two, We are not voting now.

Continued next town meeting

Community day Update?

Grade inflation discussion
