Making valentines today in the library.

Have fun!

Black History Month books

March Book Madness starts soon! Look
for recommendations

AfAM, MBM

Feb Fest

Very positive feedback. Expected to happen
next year. Good constructive criticism.

Community will be up next from HIVE

Motions:

Spring Fling

March 1 in the gym 8-10:30. Tickets sold
feb 25-1 \$10 tickets. Casey is administrator.
Have teacher chaperones also. All seniors at
™ support motion lol (only 2). Spread the

word about it. Motion passes but the Chaperones say no

First v Second lunch

On the two hour delays, there are first vs second lunch splits. Unified lunch time? Help with clubs and meetings. First lunch lets you eat earlier. Tom has a class that meets only at lunch on Thursday. No policy that we know of for the dual lunch block, has happened for years. Perhaps because of part time teachers at multiple schools. The lunch line is consistently **very** long. Could splitting lunch frequently ameliorate this? MS vs HS? May interfere with clubs. The unified lunch lets people bond together. One lunch builds a community better, isn't divisive. There are clubs that include varieties of grades. Many students eat in the

art room or work there during lunch. There is a mix of grades and people. Unified lunch is a mixing pot. Is lunch a bad time to meet? Eating makes it less efficient. Daily TA/I gives other slots for meetings, instead of lunch. Stick to the topic of just changes for 2 hour delays. First lunch on the delays matches a daily eating time. Second lunch is a late Time to eat.

POI: on delay days: first lunch at 12:40 and second at 1:10.

Second lunch means a lot of back-to-back classes after lunch w/o break. You can breakfast later on delays to hold you out till lunch.

People need to have a mental break for the grind of classes. Let's vote next week, get more input?

Vote today about unified lunch, next week about which one? Amended.

Motion passes for part 1

Discussions:

Restaurant connections

Next year there are many lunch opportunities to eat. At Swanson, nearby restaurants gave student discounts. reach out to the eateries near the Heights building about the option. Eating out can be part of an economic divide about income. Is this part of being a good neighbor? How can we help our new community? Clean ups? Helping kids or seniors? Join the two ideas of restaurant discounts and community engagement. Food drive in partnership w/

restaurants? Look for a win-win solution. Watch out for low-income students. Committee for community relations is up-and-coming. Let's prepare for our new location. Roslyn is a lot of seniors or millennialist. Could we give them (the seniors) tech support? Part of broad picture of community service. How about a lunch special that provides cheaper, faster meals for students? Restaurants don't want to lose adults who spend more. What about family activities before shows and concerts? Meters become free at 6, many events at 7:30. Could the discounts only last for a short time? Restaurants don't want to lose good customers for students. Community Day event to meet w/ business owners? Starting a dialogue w/ them.

Low-income students don't have to get a full meal. Bring their own lunch or buy an appetizer.

Student discount tokens given for community service (Hb bucks). Makes the restaurants work. Makes it accessible to all, not based on income.

Ultimately, this is business's decision.

Delivery options that let students stay at school to go to class on time and restaurants not overflowing w/ kids.

Different days have different discounts?
