Discussions:

Invitation for Say Goodbye to Vacation Lane - last week of school for goodbyes. How to format last days of school? Current students are not the target audience for Memorial Day weekend? Current students could really help with parking. Could also help distribute and monitor books. Could be planned by part of community day? HB history facts! On the announcements. A year ago Eleanor suggested that we should sing the parting glass and hug the building with a bagpiper on the roof. We can't hug, Dave says, as it will be an active construction site in May.

Words of good wishes to Dorothy Hamm
Students/Staff, tabled from 3/7/19 Leaving

them a gazebo! We could have a community day project of cleaning up the gazebo.

Transition Tuesday: bringing over some of the mice? First period of the day Tuesday I block? Gazebo? I block is flexibility. Helps middle school teachers follow their children and track them during I block. Because I block is to help children with tests, etc, TM has been the first block before. I block really only impacts juniors and seniors. Taking career center classes is a choice. Short I blocks are more useful.

Community Day: Anuraag is doing hb centric projects, Jennifer is doing out of hb projects
