teachers to address these problems both short-term and long-term.

Act as forum for discussion and expand computer science offerings

No clear path after AP CompSci

Teachers offer independent studies to course list on specific topics, collaboration between other stem classes and compsci  
Integration of computer science would be very beneficial for many classes, Math, science, art

Where is knowledge gap

1 class of intro to compsci and 1 class of ap compsci, no clear path after that

Graham offers to help create computer science independent studies, how do we create interest for these classes

The future is digitized, integration would help a lot of students take the next step in many classes

Article 2 Section 5 allows for creation of committees: proposal to create a committee to deal with these types of problems

Multiple points of failure: not much committee use in modern times,

Committees have been used

County has a stem coordinator, reach out and find information

Motion for standing committee on computer education to research and advise TM on computer education and stem integration-PASSES
