We'll never come to an agreement on the perfect piece for each individual person, so we should trust the artist and let them move forward if we like the design

Email casey at casey.robinson@apsva.us to be part of the mailing group for this

POI: is the motion to approve spending or design? Design

Buy *The Walls of HB* to support this project
PASSES

Discussions:

The building will be finished enough to start school but not completely done

The first day of entrance will almost certainly be September 3rd

Virtual tour second week of august

Transition committee is open to feedback on last day of school for uniqueness

Say ideas now or pass them along to other
involved teachers

Are wheely-chairs set? Yeah

Group painting before we leave new
building

Are walls still each a different color? Yes,
vibrantly colorful building, like our current
building

Last day spray paint the walls? Consensus
says safely not

Last day people stay behind and walk
around? Don't stay too long

Are ceiling tiles all being replaced? Not
replaced unless already painted

Maybe one last group picture?

Will the new building have the standard
tiles? In the classrooms we will have these
Some spaces are too new-tech to have
ceiling tiles

Suggestion to make a mark: sign the inside
of your locker

No paint, don't make a mess because the
custodians would have to deal with it

Are the custodians moving with us? Yes

Are they painting over the locker interiors?

Nah, they're being replaced

They're going to completely tear out lockers
and replace them

taking lockers is ok? Casey will let us know
later

Have identified a possible good space, can't
announce just yet

Student parking has been a no since
