### **Discussions:**

Elevator Etiquite: We shouldn't use elevators to go up or down one or two

floors. We also shouldn't jam all of the buttons and jump on it. It takes a lot of time when people misuse it. If you're going up, use the elevator. If you're going down, generally try to use the stairs. Rule of thumb for amount of people who use an elevator at once. When someone is coming on to the elevator, be courteous and hold the elevator. Banners and signs with etiquette on it. People who actually need the elevators need to have priority. We also need to think of the Shriver program, they're using the elevators too. If you play frisbee, use the stairs for conditioning, you will be able to jump over the building at the end of the season, scientific fact. App to track steps, maybe a competition to beat your friends on the steps. Not everyone has phones, not everyone would be able to

participate, how would peoeple know if they got the most steps?

Cell phones:

Fab Fest: Members of HIVE and NHS, would the community like to keep this tradition and when would it be favorable? Fab fest, opportunity 2 hours over 2 days for high schoolers to teach a class they want to teach. Problem with past scheduling is it being right after the 2nd quarter and the musical which can be stressful for students. We should have fab fest. Maybe making it shorter, like a long I block. Feedback survey, unanimously positive, in support of it. Around 200 people took the survey, not full school but should give a good idea. Attendance for 6th-10th grade was

excellent, 11th and 12th graders were worse in attendance. We need enough teachers to teach the classes to prevent huge class sizes which can become unmanagable. Possibly a threshold for making Feb fest happen. Acknowledgement that it is usually in a diffucult place, considering late february.

Wings Community Initiative: Women inspiring nuturing growing supporting. Any suggestions or questions. Boxes with hygeine materials in bathrooms. For cost, will talk.
