HIVE Activity Fair September 26,  
considering using the gym. Would need it  
for B Block. Would prop the posters against  
the walls instead of using tables which  
prevents some clubs from being missed.

building? Art classes have a number of murals that want to be hung up. Meet quickly this week to determine where things should go. Would come back to TM to propose these ideas where it would be approved. I block on Thursday on the Atrium steps. How do people sign up for it? There will be a sign up next to Casey's office. Staples and tacks are the main way of hanging things up now due to paint ripping off from tape. \*Passed\*

HB Students for swings - the terraces are not that much fun. Swings and hammocks proposed to combat this. Motion to put swings for students on the terraces. Maybe bean bags and such would be a more viable solution. Seating on the terraces should be a first priority. Not a lot of shade or things to

cover students on the terraces. There are other funding streams for furniture on the terraces. What are the options? Need to look more into this. Is there anybody who's interested in chairing a committee to propose ideas to TM in order to use more funding streams. We also don't want to make a lot more work for our custodians. No trash cans on the terrace, email being sent to move some closer. "...It'd be awesome if we could swing it." -Our lovely physics teacher. We need to think about Shriver, furniture or ideas that are friendly to them. \*Friendly amendment to make this more of a committee, accepted\*. New ideas being proposed to TM greatly appreciated. If you disagree, you can put yourself on the speakers list. Concern about the way our school is portrayed. Some equipment for

the enjoyment of our students not bad, in the spirit of HB.
